*****MEDIA ALERT*****

**38 WISCONSIN PARENT GROUPS REJECT LOCKDOWNS AND FORCED MASKING
IN OPEN LETTER TO PRESIDENT BIDEN AND WI GOVERNOR EVERS**

WISCONSIN – 38 parent advocacy groups across the state of Wisconsin have rejected local and national calls for new lockdowns and enforced masking of their children in an open letter to President Joe Biden and Governor Tony Evers.

The full text of the letter is below.

President Biden and Governor Evers,

We represent over 20,000 Wisconsin families across 38 parent advocacy groups, and we are here to inform you that your uninvited reign of destruction over the children of Wisconsin is finished.

We have watched the last week unfold in abject horror - observing our government institutions and leaders failing our children at every turn, again. Your renewed calls for lockdowns, enforced mask mandates, and masking in schools is not rooted in science and is objectively cruel to the most vulnerable in our society, our children. We believe that you are in fact aware of this and continue to play political games with our children, despite our efforts to work with you over the last twelve months.

We are here to inform you that this ends today.

Effective immediately we will not:

1. Mask our children in schools
2. Allow you to use your private sector counterparts to enforce invasive mask mandates on our children in various stores or at community activities
3. Subject our children to any further local, regional, or national lockdowns or movement restriction

Simply put, these are not your children. They are ours and they too, are Americans with rights. They are our responsibility and our most beloved. They are not yours.

We applaud and support the school boards, businesses, and localities that have respected our parental choice. We anticipate and appreciate their continued support of our right to choose what is best for our children and individual families.

If you are a parent reading this, hear us clearly: you are not alone. We urge you to connect with other parents and make your voice heard.

We are strong. We are united. We are in control.

We have never and will never co-parent with the government.

Respectfully,
